

Certificate Requirements

The Board of Trustees grants a variety of certificates. Requirements for the certificates include the successful completion of all courses within the certificate and a minimum cumulative GPA of 2.0 in all courses within the certificate. To be eligible for a certificate, students must have earned at least 50% of the certificate hours from NCCC including their final semester at NCCC.

Course numbers under 100 will not count toward the hours required for the certificate.

All currently enrolled students who plan to receive a certificate at the conclusion of any semester must file an Intent to Receive Certificate form at the time they enroll for their final semester so that their records may be checked to ensure that all certificate requirements have been met.

Candidates for the Licensed Practical Nursing certificate have additional requirements. *See the Licensed Practical Nursing program sheet for more information.*
