

Articulation Agreement between Neosho County Community College Department of Nursing Education and Baker University School of Nursing

The Associate Degree Nursing to Master of Nursing academic pathway provides an alternative to the commonly seen stepwise progression in educational settings. The development of this alternate pathway is partly in response to the 2010 Institute of Medicine's Future of Nursing report which spoke to the need of furthering education at all levels and promoting the nurse's ability to practice to their upmost capacity. Such preparation will prepare nurses to assume advanced nursing roles in leadership and education. The efficiencies of the model will eliminate repetition, provide opportunity to demonstrate experiential competencies, allow students to progress at their own pace, and shorten graduation times. The entry of a better-educated nursing workforce will be better equipped to meet the projected shortages of nurses as well as the challenges of the increasingly complex healthcare system.

Collaborative Agreement

Neosho County Community College and Baker University agree that any student who has successfully completed an Associate Degree in Nursing at Neosho County Community College may apply those credit hours toward the BSN portion of the ADN to BSN program at Baker University. The Baker University Registrar will determine which credit hours will be transferred and how they will apply to the desired program of study.

Graduates of the Neosho County Community College School of Nursing must meet the additional admission requirements:

- An associate degree in nursing from a professionally accredited nursing program (ACEN/CNEA).
- A current unencumbered license to practice professional nursing in the USA
- A minimum grade point average (GPA) of 2.7 (4.0 scale) in nursing and overall GPA. Students below this level may apply for Conditional Admission.
- Students who are conditionally admitted must maintain a B (3.0) average throughout the ADN to BSN and the first 6 hours of the BSN course work.
- Undergraduate course work in Health Assessment, Pathophysiology, and Pharmacology. Students have an option to test out for applicants with no stand alone course.
- A completed online application for ADN to BSN admission.
- Official transcripts from all colleges/universities attended.
- A current resume documenting work history, including levels of responsibility, areas of professional growth, and prior professional education experiences.
- Goal statement: a one to two page essay describing personal and professional goals including how graduate nursing study at Baker University will enable achievement of these goals.
- An individual interview may be requested or required.

This articulation agreement is subject to revision or cancellation when deemed appropriate by either Baker University School of Nursing or Neosho County Community College, but otherwise shall stand as presented. Students who enter Baker University under the auspices of this

agreement will see no adverse effects from any subsequent changes. Equivalent courses may also be accepted as deemed appropriate by the Baker University Registrar in consultation with School of Nursing faculty.

Articulation Guide

Courses completed at Neosho County Community College Associate in Applied Science:

PSYC 155	General Psychology	3 credit hours
BIOL 257	Human Anatomy & Physiology with Lab	3 credit hours
